### India GDP Growth Slows More than Anticipated

The Indian economy advanced 7.1 percent year-on-year in the third quarter of 2018, well below 8.2 percent in the previous period and market expectations of 7.4 percent. It is the lowest growth rate in three quarters, mainly due to a slowdown in consumer spending amid high oil prices and a weaker rupee. Also, inventories, financial services, manufacturing and the farm sector rose less. Household spending (7 percent compared to 8.6 percent in the previous period) and inventories (3.8 percent compared to 8.6 percent) slowed. On the other hand, government spending (12.7 percent compared to 7.6 percent), gross fixed capital formation (12.5 percent compared to 10 percent), exports (13.4 percent compared to 12.7 percent) and imports (25.6 percent compared to 12.5 percent) rose faster. Household spending accounted for 54.5 percent of the GDP (54.9 percent in Q2); gross fixed capital formation for 32.3 percent (31.6 percent in Q2); public expenditure for 12.4 percent (11.8 percent in Q2); and changes in stocks for 0.7 percent, the same as in Q2. Exports accounted for 21.8 percent (21.4 percent in Q2) while imports subtracted 26.6 percent (-24.7 percent in Q2).

### India's Foreign Trade

India's overall exports (Merchandise and Services combined) in April-October 2018-19\* are estimated to be USD 308.32 Billion, exhibiting a positive growth of 17.17 per cent over the same period last year. Overall imports in April-October 2018-19\* are estimated to be USD 374.88 Billion, exhibiting a positive growth of 18.88 per cent over the same period last year.

Exports in October 2018 were US \$ 26.98 Billion, as compared to US \$ 22.89 Billion in October 2017, exhibiting a positive growth of 17.86 per cent. In Rupee terms, exports were Rs. 1,98,634.84 Crore in October 2018, as

compared to Rs. 1,48,962.64 Crore in October 2017, registering a positive growth of 33.35 per cent. Non-petroleum and Non Gems and Jewellery exports in October 2018 were US \$ 18.94 Billion, as compared to US \$ 16.54 Billion in October 2017, exhibiting a positive growth of 14.54 per cent.

Imports in October 2018 were US \$ 44.11 Billion (Rs. 3,24,774.78 Crore), which was 17.62 per cent higher in Dollar terms and 33.07 per cent higher in Rupee terms over imports of US \$ 37.50 Billion (Rs. 2,44,064.20 Crore) in October 2017.

### India will be Global Hub of Start-Up Community

Indian startups have the capacity to bring about transformational change to India's growth story said Union Minister of Commerce & Industry and Civil Aviation, Suresh Prabhu, in New Delhi today. He was speaking at the launch of a report on the State of the Indian StartupEcosystem-2018 by Inc 42 which is an Indian information platform known for its coverage of the Indian startup ecosystem.

The Minister went on to say that the Commerce & Industry Ministry is taking many initiatives to foster a positive and empowering ecosystem for startups to grow and flourish in the country. To this end many regulations which were in place for traditional industries are now being reviewed and either scrapped or modified in order to facilitate the ecosystem which will foster and encourage startups to take root in India. Commerce Minister also said that the Ministry is holding a global investors meeting next month in India where top investors are being invited to participate in a roundtable meeting in order to pave the way for greater investments in Indian startups.

## **Ayurveda Departments will be opened in the new 19 AIIMS**

Minister of State for AYUSH Shri Shripad Yesso Naik has announced that Ayurveda Departments will be opened in the new 19 AIIMS. He said, work is already on to start Ayurveda Departments in hundred ESIC hospitals under Ministry of Labour. Further, approval has been received from Home Ministry to open Ayurveda Departments in seven hospitals of BSF and other Para military forces. Inaugurating the 3rd Ayurveda Day in New Delhi today along with Union Minister for Science & Technology, Earth Sciences and Environment, Forest and Climate Change Dr. Harshvardhan, Shri Naik said, this year Ministry has taken many steps to fulfil the theme 'Ayurveda for public health' and decided for further expand the coverage of the National Programme of 'Prevention of Non Communicable Disease' from existing six states. The Minister further said, the Ministry will organise 50 workshops in collaboration with MSME to enhance entrepreneurship in Ayurveda and AYUSH sector.

## **India's plastics export jump 31.6% to US\$ 4.59 bn in H1 FY19**

India's plastics exports posted a growth of 31.6 per cent at USD 4.59 billion during the period April - September 2018 (H12018-19) as against USD 3.48 billion in same period during H1 2017-18, registering a faster pace of growth than the overall merchandise export growth from India, as per the Plastics Export Promotion Council (Plexconcil). During H1 2018-19, India reported merchandise exports worth USD 164.04 billion, up 12.5 per cent from USD 145.75 billion in H1 2017-18. According to Plexconcil, plastics formed 2.80 per cent of India's overall merchandise exports in H12018-19. The growth in India's plastics export has been primarily boosted by higher shipment of plastic raw materials, plastic sheet, film, plates, and packaging materials. And we added new destination countries for plastics export which includes French Guiana, Guam, Kiribati Republic, Lesotho, Marshall Island, Mayotte, Monaco,

Nauru Republic and United States Virgin Islands," Plexconcil chairman Ravish B Kamath said.

## **PwC India to invest Rs 100 cr for new tech solutions, to hire 1,000 digital tech experts**

PwC India Monday said it will invest Rs 100 crore on development of digital solutions and expects to hire 1,000 digital technology experts over the next three years. The move is aimed at strengthening capabilities to deliver tech solutions that will help clients address real-world business challenges, it said in a statement. This will be in addition to ongoing investments towards innovation, digital R&D and talent for building new tech-enabled solutions, it added. "Our deep expertise and understanding of our clients' business and the sectors they operate in has been the foundation upon which these tech solutions have been created. These technology-based tools and solutions will also get integrated with our existing service offerings," PwC India Partner and Leader (Advisory) Deepankar Sanwalka said. The company has also demonstrated 40 new tech solutions spanning multiple areas like digital, finance, risk and compliance and tax. The tech-enabled solutions have been developed to solve client challenges on emerging technologies like cloud, Artificial Intelligence and Mobile.

## **Impact of GST has largely been positive and constructive on Pharma Sector**

Impact of Goods and Services Tax (GST) on Pharma sector has largely been positive and constructive, informed Minister of State for Road Transport, Highways, Shipping and Chemicals & Fertilizers, Shri Mansukh Mandaviya, in a statement here today. Following the vision of Prime Minister of India, Shri Narendra Modi, to ensure health security for all citizens of India, the Ministry of Chemicals & Fertilizers has taken various steps to ensure availability of 'Affordable, Quality Medicines for All', the Minister added. In this background, Shri Mandaviya informed that the Pharma sector has seen a positive growth after the implementation of GST. This is

evident from the following:-Before GST, Annual Turnover of the Pharma Sector (as on 31.05.2017) was Rs 1,14,231 crores while after GST, the Annual Turnover of Pharma sector (as on 31.05.2018) touched Rs 1,31,312 crores, which is 6% higher than the Pre-GST regime.

### **Digital disruption' to add 1.4 mn new IT jobs in India by 2027**

India is likely to add over 1.4 million new IT jobs by 2027, primarily driven by emerging technologies like cybersecurity, Internet of things (IoT) and Big Data, a report by Cisco-IDC said. According to IDC InfoBrief, commissioned by tech major Cisco, new-age jobs will add more than 5 million positions worldwide by 2027. The report said roles like social media administrator, machine learning designer, and IoT designer would be most sought after in the coming years. It pointed out that about 22 per cent IT professional respondents said they self-funded their certification courses, while about 50 per cent of them underwent some training in 2017 - a reflection of the growing importance of upskilling in a rapidly changing technological landscape.
